# IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions

Altered vision

To reduce the likelihood of a seizure when playing video games:

- 1. Sit or stand as far from the screen as possible.
- 2. Play video games on the smallest available television screen.
- 3. Do not play if you are tired or need sleep.
- 4. Play in a well-lit room.
- 5. Take a 10 to 15 minute break every hour.

## **WARNING - Repetitive Motion Injuries**

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

# **WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- · Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.

A Button: Accelerates your truck.

B Button: Brake (or reverse if at standstill).

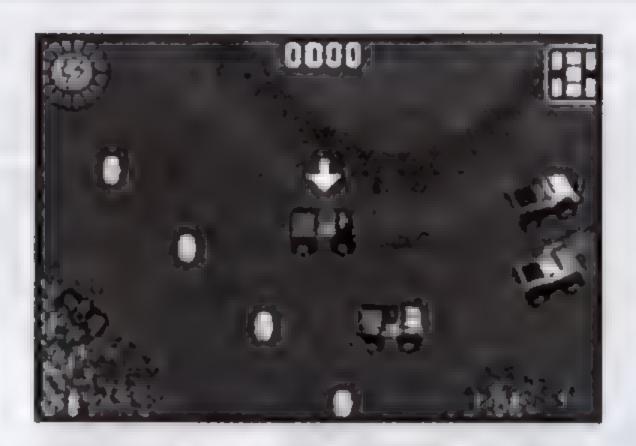

R Button: Charge Jump. Press Arrow when

airborne to induce spin.

L Button: Activate power-up.

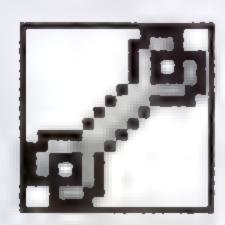

# WHAT YOU SEE

The arrow, which is always YELLOW, shows your truck in front of the other trucks. In the lower-left corner is one of the power-ups on this level, a missile. You can see other objects, such as the coins shown here or flags that can appear. Both earn you money for later upgrades.

You must capture as many coins and flags as you can, while inflicting maximum destruction on your opponents. You do this by picking up weapon power-ups and by smashing into other trucks. You can also find power-ups that repair your truck or give it special "boost" movements. If you can achieve these goals without getting knocked out in the arena, then you score points and gain money. In the Championship game you can use this money to upgrade your truck.

# POWER-UPS

### ELECTROMAGNETIC PULSE (EMP)

The on-screen opponents halt for a couple of seconds.

Well, now that you know what to expect, get behind the wheel and cause Maximum Destruction with your Monster Jam truck! Good luck in your race to the championship!
